Detailed Action

This action is in response to the application response filed on 3/14/07.

Restriction

Newly submitted claim 8-36 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims 10-19 & 31-36 are computer systems & computer program, claims 8-9 & 28-30 while methods claims include a selection criteria.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 8-35 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

In view of the applicants amendments the 112 rejections is hereby withdrawn.

Claim Rejections - 35 USC § 102

The Examiner has read and reviewed all of the information provided by the Applicant. The examiner rejects as final claims 1-12 under 35 USC 102.

The Applicant attention is re-drawn to the following:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this

Art Unit: 3693

subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Carothers (US Patent Publication US 2002/0069117 A1).

Re claim 1, 9-12: Carothers discloses:

A method, system, program, server, apparatus comprising:

Step receiving a request (by corporation or individual who is contract member requests a commerce transaction of a commodity purchase by participating in a marketplace) (see Carothers abstract, while this is shown in prior art it also is obvious physical auctions have existed for years and electronic action from well before the date of application including this step of receiving a request)

A mediation step of approving a purchaser to transact and attaching credit guarantee on the second marketplace based of the first contract. (see Carothers, "peer-to-peer" feature Figure 1, item 11 is mediation step between users 22 and member 32 & 34)

Re claim 2: Carothers discloses:

Mediation step = credit enquiry based on purchase history from first marketplace, when approved purchased is approved on second marketplace based on credit guarantee information. (see paragraph 60, line 10)

Re claim 3: Carothers discloses:

Mediation step = estimation based on plurality of items including: sending back (see paragraph 106)

Re claim 4: Carothers discloses:

Mediation step establishes an estimation standard, adds plus when item is satisfied and minus when item is not satisfied, determines guarantee based on total points (see paragraph 60, line 10 it is inherent in checking the credit that a method of ranking is used)

Re claim 5: Carothers discloses:

Mediation step show transaction information including the cost estimation and reply (see paragraph 60, line 1)

Re claim 6 & 7: Carothers discloses:

When commerce transaction is complete mediation step completes transaction by demanding payment from the purchaser from first marketplace and settling transaction on second marketplace (see paragraph 60, line 11)

Re claim 8: Carothers discloses:

When purchaser commits an unlawful transaction on the first marketplace mediation step discloses to second marketplace. (see Carothers, Figure 1, item 11 it is inherent in tracking the users that unlawful behavior would be known and shared)

Response to Arguments

Applicant's arguments filed 3/14/07 have been fully considered but they are not persuasive.

In particular, and respect to Claim 1 the Applicant argued 1st: Carothers does not teach or suggest requesting to purchase the commodity from a second marketplace having a mediation contract with the first marketplace.

The Examiner refutes the argument made by the Applicant and draws the attention to Carothers, Figure 2, this depicts the peer-to-peer marketplace with includes by definition not just

Art Unit: 3693

two (or a second marketplace) but an infinite number of marketplaces. For example MS2 (item 40 in this picture connects to 5 other MS (items 41-44 + 39) or 5 other marketplaces through a MA1 (or administer) this including having a mediation contract. MS2 (item 40) is also connect to another administer MA2 (item 52) While not depicted this item 52 is described to have multiple nodes and this structure can go on for infinitely.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
